Finding of No Significant Impact (FONSI)

DEPARTMENT OF THE ARMY
LOS ANGELES DISTRICT CORPS OF ENGINEERS
FINDING OF NO SIGNIFICANT IMPACT
BREA DAM WATER CONTROL
ORANGE COUNTY, CALIFORNIA

I have reviewed the attached Environmental Assessment for the Brea Dam Water Control plan (ie. modification to operational schedule). The proposed operational schedule would accommodate expected incoming flows into the reservoir while not exceeding the capacity of the downstream channel. No significant biological resources, cultural resources, water quality, or land use would be potentially affected by the proposed plan. The environmental assessment covers the proposed operational schedule which would go into effect upon approval of the South Pacific Division office of the U. S. Army Corps of Engineers, expected January 1989.

I have considered possible impacts on environmentally significant resources as discussed in the EA and find that there are no significant impacts resulting from the project. Therefore, an Environmental Impact Statement need not be prepared for the modification to the operational schedule.
